

Hamblen County Department of Education – Case Study

Saving Time and Simplifying Equipment Tracking Across School Campuses

Industry

- Education

Challenges

- Tracking computer and network equipment across multiple campus locations
- Needed to eliminate spreadsheets and improve accuracy
- Required user-friendly solution with minimal technical knowledge
- Compliance with federal funding traceability requirements

Benefits

- Time and cost savings through simplified equipment tracking
- Replaced spreadsheets with a barcode-based solution
- Configurable reporting and check-out features
- Quick implementation and strong support team

About Hamblen County Department of Education

Located in Morristown, Tennessee, the Hamblen County Department of Education serves over 10,000 students from Pre-K through 12th grade. The district is committed to preparing students for future success and needed a reliable system to track thousands of computers and network equipment across multiple schools.

The Challenge: Locating Equipment and Eliminating Spreadsheets

The school district faced the daunting task of managing a large [inventory system](#) of technology equipment:

- **Lack of Visibility:** No centralized way to locate and manage assets efficiently.
- **Spreadsheet Dependency:** Equipment tracking was spread across multiple spreadsheets and outdated software, creating inefficiencies.
- **Federal Compliance Needs:** Equipment purchased with federal funds needed to be easily located and accurately reported.

"Our need is being able to locate all equipment purchased with federal funding monies quickly and accurately."

- Shawn Kerr, Hamblen County Representative

Why Hamblen County Chose BarCloud

After an extensive search and evaluation, Hamblen County implemented BarCloud [Barcode Inventory System](#) Based [Asset Tracking Solution](#)

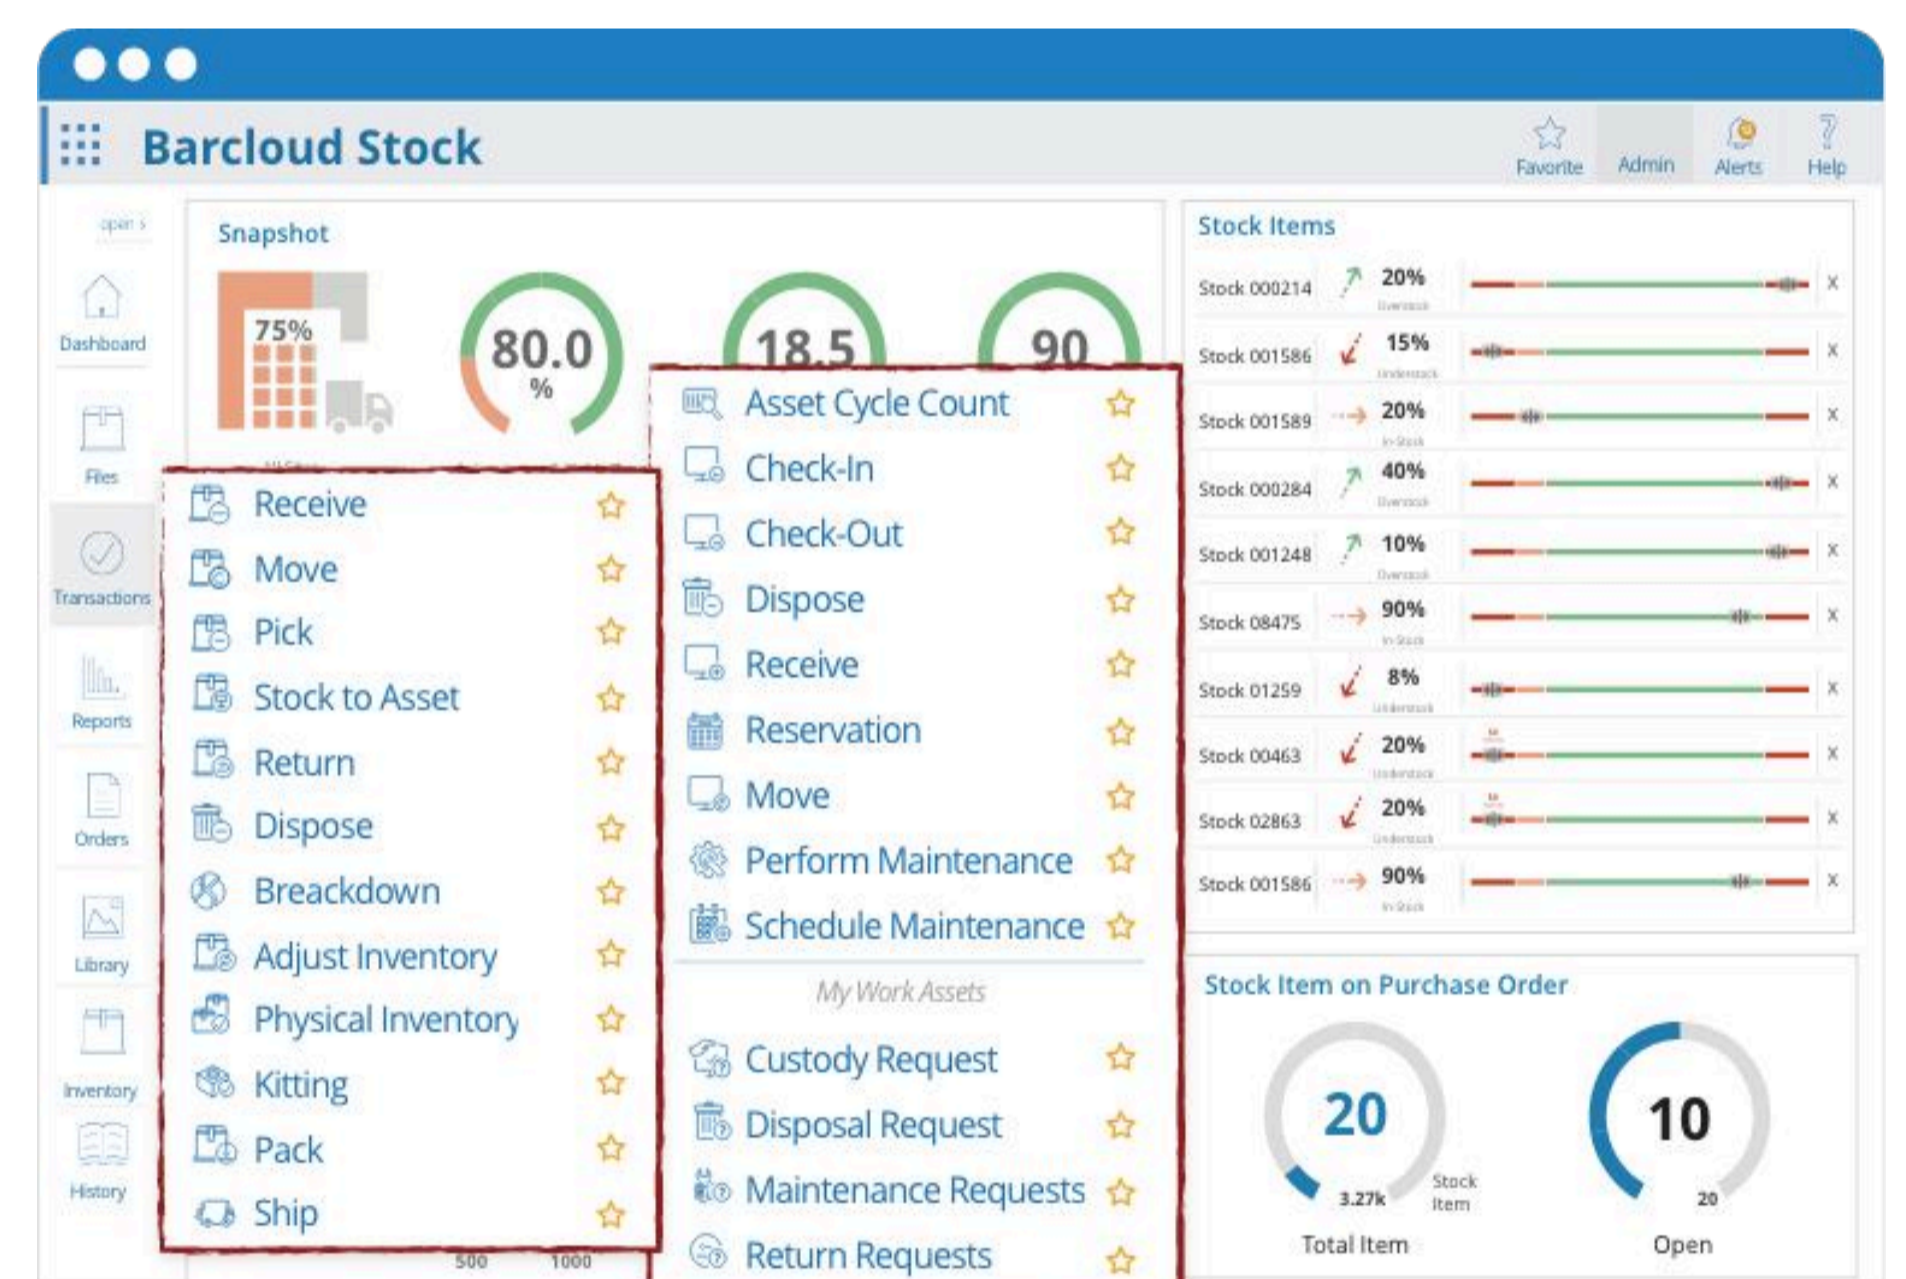

Simplicity and Usability: Minimal training required; easy for staff with limited technical background.

Barcode-Based Efficiency: Eliminated the need for multiple spreadsheets and manual data entry.

Configurable Features: Reporting and check-out tools tailored to district needs.

Strong Support Team: Guided implementation and provided fast, effective assistance.

Implementation and Results: Faster Tracking and Increased Productivity

"The benefit is a huge time saver for us as we are able to use one point for data entry and reporting."

- Shawn Kerr, Hamblen County Representative

With our Systems' Asset Tracking Solution, the district transitioned to a centralized and automated process:

- **Time Savings:** One point of data entry and reporting improved efficiency significantly.
- **Improved Accuracy:** Assets are now easily located and tracked with barcode labels.
- **Higher Productivity:** Staff spends less time managing equipment and more time supporting students.

Looking to Modernize Your School District's Equipment Tracking?

If your district needs a simple, cost-effective way to track laptops and other equipment, our System can help.
